Tools: Git, GitHub, Netlify

Soft Skills: Problem-solving, Self-learning, Communication

PROJECTS

[weather App ↗](#) (Dec 2025)

A responsive Weather App that provides real-time weather information for any city using live weather data. This project helped me understand API integration, asynchronous JavaScript, and dynamic UI updates.

[Personal Portfolio Website ↗](#) (Dec 2025)

Designed and developed a mobile-responsive portfolio showcasing projects and skills. Deployed using Netlify and integrated GitHub and external project links.

[To Do Web App ↗](#) (Nov 2025)

A task management application built with HTML, CSS, and JavaScript, featuring dynamic task handling and a clean, interactive user interface.

[Music Player ↗](#) (Nov 2025)

A responsive and interactive Music Player web application that allows users to play, pause, and control audio tracks through a clean and user-friendly interface. This project helped me understand audio handling in JavaScript and dynamic UI updates.

[StudNet ↗](#) (ongoing)

A Single Page Application built using HTML, CSS, and JavaScript that combines student productivity tools with a client-side chatbot. Implemented dynamic UI updates, DOM manipulation, and interactive features without external frameworks.
