SUMUKH BHAT

/sumukh-bhat   sumukhbhat.dev@gmail.com   @bhatSumukh

Motivated BCA student with hands-on experience in building responsive web applications using HTML, CSS, and JavaScript. Strong understanding of UI layout, component design, and DOM manipulation. Seeking a front-end development internship to apply skills, contribute to real-world projects, and learn modern development workflows.

SKILLS

Technical Skills

Front-End: HTML5, CSS3 (Flexbox, Grid, Media Queries), JavaScript (ES6+, DOM Manipulation)

Version Control: Git, GitHub

Deployment: Netlify

Soft Skills: Problem-solving, Self-learning, Communication

PROJECTS

Amazon UI Clone Frontend Web App

Built a responsive e-commerce homepage using HTML and CSS (Flexbox + Grid).

Focused on layout, responsive design, and reusable UI components.

Deployed online using Netlify and hosted code on GitHub.

To-Do List Web App

Implemented task creation, completion, and deletion using JavaScript DOM manipulation.

Successfully deployed online and linked to the portfolio.

Music Player Web App

Created a custom web-based audio interface using HTML5 audio API.

Implemented play, pause, and track selection logic using JavaScript events.

Weather App

Created and deployed a custom weather app using HTML, CSS , JavaScript

Dynamic changes of weather images and modern UI

Personal Portfolio Website

Designed and developed a mobile-responsive portfolio showcasing projects and skills.

Deployed using Netlify and integrated GitHub and external project links.

EDUCATION

Bachelor of Computer Applications (BCA)

Poornaprajna College (Autonomous), Udupi

2025–2028 (1st Year)

ACHIEVEMENTS

Secured **2nd place** in college **Web Design Competition (2025)**

Earned **"Responsive Web Design"** Certification – **freeCodeCamp**

Completed and deployed 5+ practical web development projects on GitHub & Netlify
